SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
   
   Trade name
   UltraPly™ TPO Cut Edge Sealant Grey

1.2. Relevant identified uses of the substance or mixture and uses advised against

   Relevant identified uses of the substance or mixture
   Adhesive

   Uses advised against
   -

   The full text of any mentioned and identified use categories are given in section 16

1.3. Details of the supplier of the safety data sheet

   Company and address
   Firestone Building Products EMEA
   Ikaroslaan 75
   1930 Zaventem
   Belgium
   Tel. : +32 2 711 44 50

   Contact person
   -

   E-mail
   firestonemds@bfdp.com

   SDS date
   2019-09-26

   SDS Version
   1.0

1.4. Emergency telephone number

   In the event of a medical enquiry involving this product, please contact your doctor or local hospital accident and emergency department or the NHS enquiry service - dial 111.
   or contact BIG Emergency number +32 (0)14 58 45 45

   See section 4 “First aid measures”.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

   Flam. Liq. 3; H226
   Asp. Tox. 1; H304
   Skin Irrit. 2; H315
   Acute Tox. 4; H332
   STOT RE 2; H373
   Aquatic Chronic 3; H412

   See full text of H-phrases in section 2.2.
2.2. Label elements

Hazard pictogram(s)

[Images of hazard symbols]

Signal word
Danger

Hazard statement(s)
Flammable liquid and vapour. (H226)
May be fatal if swallowed and enters airways. (H304)
Causes skin irritation. (H315)
Harmful if inhaled. (H332)
May cause damage to organs through prolonged or repeated exposure. (H373)
Harmful to aquatic life with long lasting effects. (H412)

Precautionary statements
General
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
No smoking. (P210).
Do not breathe mist/vapours/fume/spray. (P260).

Response
Wear protective gloves/protective clothing/eye protection/face protection. (P280).
Do NOT induce vomiting. (P331).
IF SWALLOWED: Immediately call a POISON CENTER/doctor. (P301+P310).
IF ON SKIN: Wash with plenty of water. (P302+P352).

Storage
Store in a well-ventilated place. Keep cool. (P403+P235).

Disposal
Dispose of contents/container to an approved waste disposal plant. (P501).

Identity of the substances primarily responsible for the major health hazards
xylene;
ethylbenzene
Distillates (petroleum), hydrotreated light Kerosine
Propylbenzene, cumene

Additional labelling
Not applicable

Unique formula identifier (UFI)
-

2.3. Other hazards
This product contains substances that can cause chemical pneumonia if inhaled. The symptoms of chemical pneumonia may appear after several hours.
This product contains an organic solvent. Repeated or prolonged exposure to organic solvents may result in adverse effects to the nervous system and internal organs such as liver and kidneys.

Additional warnings
Tactile warning. If this product is sold in retail, it must be delivered with child-resistant fastening.

VOC (volatile organic compound)
Not applicable

SECTION 3: Composition/information on ingredients

3.1/3.2. Substances/Mixtures

NAME: m-xylene o-xylene xylene p-xylene
IDENTIFICATION NOS.: CAS-no: 1330-20-7 EC-no: 215-535-7 REACH-no: 01-2119488216-32-xxxx Index-no: 601-022-00-9
According to EC-Regulation 2015/830

| CONTENT: | 25-50% |
| CLP CLASSIFICATION: Flam. Liq. 3, Acute Tox. 4, Skin Irrit. 2 H226, H312, H315, H332 |
| NOTE: | O, L |
| NAME: | Distillates (petroleum), hydrotreated light Kerosine - unspecified [A complex combination of hydr] |
| IDENTIFICATION NOS.: | CAS-no: 64742-47-8 EC-no: 265-149-8 REACH-no: 01-2119484819-18-xxxx Index-no: 649-422-00-2 |

**NOTE:** O, L

| CONTENT: | < 0,1% |
| CLP CLASSIFICATION: Flam. Liq. 3, Acute Tox. 4, Asp. Tox. 1, STOT SE 3, Aquatic Chronic 2 H226, H302, H304, H335, H411 |
| NOTE: | O, L |

(*) See full text of H-phrases in section 16. Occupational exposure limits are listed in section 8, if these are available. O = Organic solvent L = European occupational exposure limit.

**Other information**

ATEmix(inhale, vapour) = 12,944 - 19,416
ATEmix(dermal) > 2000
ATEmix(oral) > 2000
Skin Cat. 2 Sum = Sum(Ci/(S(G)CLi)) = 5,44 - 8,16
N chronic (CAT 3) Sum = Sum(Ci/(M(chronic)i*25)*0.1*10^CATi) = > 1 - < 10

**SECTION 4: First aid measures**

**4.1. Description of first aid measures**

**General information**

In the case of accident: Contact a doctor or casualty department or call NHS 111 – take the label or this safety data sheet with you. NHS professionals can contact The National Poisons Information Service (dial 0344 892 0111, 24 h service).

Contact a doctor if in doubt about the injured person’s condition or if the symptoms persist. Never give an unconscious person water or other drink.

Contact a doctor if in doubt about the injured person’s condition or if the symptoms persist. Never give an unconscious person water or other drink.

**Inhalation**

Bring the injured person into fresh air. Make sure the injured person is continuously monitored. Prevent shock by keeping the injured person warm and calm. If breathing ceases, give mouth-to-mouth resuscitation. If unconscious, roll the injured person into recovery position. Call an ambulance.

**Skin contact**

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with soap and water. Skin cleanser can be used. DO NOT use solvents or thinners.

**Eye contact**

Remove contact lenses and open eyes widely. Flush eyes with water or saline water (20-30°C) for at least 15 minutes. Seek medical assistance and continue flushing during transport.
According to EC-Regulation 2015/830

Ingestion
Do not induce vomiting! If vomiting occurs, keep head facing down to prevent vomit entering the lungs. Call a doctor or ambulance. Symptoms of chemical pneumonia can appear after several hours. People who have swallowed the product should be kept under medical attention for a minimum of 48 hours.

Burns
Rinse with water until the pain stops then continue to rinse for a further 30 minutes.

4.2. Most important symptoms and effects, both acute and delayed
This product contains substances that can cause chemical pneumonia if inhaled. The symptoms of chemical pneumonia may appear after several hours.
Neurotoxic effects: This product contains organic solvents, which may cause adverse effects to the nervous system. Symptoms of neurotoxicity include: loss of appetite, headache, dizziness, ringing in ears, tingling sensations of skin, sensitivity to the cold, cramps, difficulty in concentrating, tiredness, etc. Repeated exposure to solvents can result in the breaking down of the skin's natural fat layer and may result in an increased absorption potential of other hazardous substances at the area of exposure.
Irritation effects: This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure.

4.3. Indication of any immediate medical attention and special treatment needed
IF exposed or concerned: Get immediate medical advice/attention.
Information to medics
Bring this safety data sheet.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Recommended: alcohol-resistant foam, carbonic acid, powder, water mist. Waterjets should not be used, since they can spread the fire.

5.2. Special hazards arising from the substance or mixture
If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances are produced. These are: Carbon oxides. Fire will result in dense black smoke. Exposure to combustion products may harm your health. Fire fighters should wear appropriate protection equipment. Closed containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to enter the sewage system and nearby surface waters.

5.3. Advice for firefighters
Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Avoid inhalation of vapours from spilled material. Avoid direct contact with spilled substances. Storages not yet ignited must be cooled by water mist. Remove flammable materials if conditions allow it. Ensure sufficient ventilation.

6.2. Environmental precautions
Avoid discharge to lakes, streams, sewers, etc. In the event of leakage to the surroundings, contact local environmental authorities. It is recommended to install waste collection trays to prevent emissions to the waste water system and surrounding environment.

6.3. Methods and material for containment and cleaning up
Use sand, sawdust, earth, vermiculite, diatomaceous earth to contain and collect non-combustible absorbent materials and place in container for disposal, according to local regulations. To the extent possible cleaning is performed with normal cleaning agents. Avoid use of solvents.

6.4. Reference to other sections
See section on “Disposal considerations” in regard of handling of waste. See section on ‘Exposure controls/personal protection’ for protective measures.
According to EC-Regulation 2015/830

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Avoid static electricity. Protect electrical equipment in accordance with current standards. To divert static electricity during transmission, containers must be grounded and connected by wire with the receiving containers. Do not use spark-forming tools.
Smoking, storage of tobacco, consumption and storage of food or liquids are not allowed in the workrooms. It is recommended to install waste collection trays to prevent emissions to the waste water system and surrounding environment. See section on 'Exposure controls/personal protection' for information on personal protection. Avoid direct contact with the product.

7.2. Conditions for safe storage, including any incompatibilities
Always store in containers of the same material as the original container. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Must be stored in a cool and well-ventilated area, away from possible sources of ignition.

Storage temperature
No data available.

7.3. Specific end use(s)
This product should only be used for applications quoted in section 1.2

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

DNEL / PNEC
No data available

8.2. Exposure controls
Compliance with the accepted occupational exposure limits values should be controlled on a regular basis.

General recommendations
Observe general occupational hygiene standards.

Exposure scenarios
In the event exposure scenarios are appended to the safety data sheet, the operational conditions and risk management measures in these shall be complied with.

Exposure limits
Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

Appropriate technical measures
Airborne gas and dust concentrations must be kept at a minimum and below current limit values (see
According to EC-Regulation 2015/830 above). Installation of an exhaust system if normal air flow in the work room is not sufficient is recommended. Ensure emergency eyewash and -showers are clearly marked.

**Hygiene measures**
In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.

**Measures to avoid environmental exposure**
Keep containment materials near the workplace. If possible, collect spillage during work.

**Individual protection measures, such as personal protective equipment**

**Generally**
Use only CE marked protective equipment.

**Respiratory Equipment**
In case of brief exposure or low pollution wear respirator protection.
In case of prolonged or high exposure wear air-supplied respirator.

**Skin protection**
Dedicated work clothing should be worn.

**Hand protection**
Nitrile rubber
Breakthrough time: > 480 minutes (Class 6)

**Eye protection**
Wear safety glasses with side shields.

**Solubility**
- Solubility in water: Insoluble
- n-octanol/water coefficient: No data available.

**9.2. Other information**
- Solubility in fat (g/L): No data available.
According to EC-Regulation 2015/830

SECTION 10: Stability and reactivity

10.1. Reactivity
No data available

10.2. Chemical stability
The product is stable under the conditions, noted in the section “Handling and storage.”

10.3. Possibility of hazardous reactions
Nothing special

10.4. Conditions to avoid
Avoid static electricity.

10.5. Incompatible materials
Strong acids, strong bases, strong oxidizing agents, and strong reducing agents.

10.6. Hazardous decomposition products
The product is not degraded when used as specified in section 1.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity
Substance: ethylbenzene
Species: Rabbit
Test: LD50
Route of exposure: Dermal
Result: 17800 mg/kg

Substance: ethylbenzene

Result: 4300 mg/kg bw

Skin corrosion/irritation
Causes skin irritation.

Serious eye damage/irritation
No data available.

Respiratory or skin sensitisation
No data available.

Germ cell mutagenicity
No data available.
According to EC-Regulation 2015/830

**Carcinogenicity**
No data available.

**Reproductive toxicity**
No data available.

**STOT-single exposure**
No data available.

**STOT-repeated exposure**
May cause damage to organs through prolonged or repeated exposure.

**Aspiration hazard**
May be fatal if swallowed and enters airways.

**Long term effects**
Neurotoxic effects: This product contains organic solvents, which may cause adverse effects to the nervous system. Symptoms of neurotoxicity include: loss of appetite, headache, dizziness, ringing in ears, tingling sensations of skin, sensitivity to the cold, cramps, difficulty in concentrating, tiredness, etc. Repeated exposure to solvents can result in the breaking down of the skin's natural fat layer and may result in an increased absorption potential of other hazardous substances at the area of exposure.

Irritation effects: This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure.

**SECTION 12: Ecological information**

12.1. **Toxicity**
No data available.

12.2. **Persistence and degradability**

12.4. **Mobility in soil**
No data available.

12.5. **Results of PBT and vPvB assessment**
This mixture/product does not contain any substances considered to meet the criteria classifying them as PBT and/or vPvB.

12.6. **Other adverse effects**
This product contains substances that are toxic to the environment. May result in adverse effects to aquatic organisms.
This product contains substances, which may cause adverse long-term effects to the aquatic environment.

**SECTION 13: Disposal considerations**

13.1. **Waste treatment methods**
Product is covered by the regulations on hazardous waste.

**Waste**

14.5. Environmental hazards
This product contains substances, which may cause adverse long-term effects to the aquatic environment.

14.6. Special precautions for user

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code
No data available

(*) Packing group
(**) Marine pollutant

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions for application
People under the age of 18 shall not be exposed to this product cf. Council Directive 94/33/EC of 22 June 1994 on the protection of young people at work.
Pregnant women and women breastfeeding must not be exposed to this product. The risk, and possible technical precautions or design of the workplace needed to eliminate exposure, must be considered.

Other
In accordance with Regulation (EC) No. 1272/2008 (CLP) the evaluation of the classification of the mixture is based on:
The classification of the mixture in regard of physical hazards has been based on experimental data.
The classification of the mixture in regard of health hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP)
The classification of the mixture in regard of environmental hazards are in accordance with the calculation methods given by Regulation (EC) No. 1272/2008 (CLP)
It is recommended to hand over this safety data sheet to the actual user of the product. Information in this safety data sheet cannot be used as a product specification.
The information in this safety data sheet applies only to this specific product (mentioned in section 1) and is not necessarily correct for use with other chemicals/products.

A change (in proportion to the last essential change (first cipher in SDS version, see section 1)) is marked with a blue triangle.

The safety data sheet is validated by
pipe/CHYMEIA

Date of last essential change
(First cipher in SDS version)

Date of last minor change
(Last cipher in SDS version)
